

Open your browser (Internet Explorer, Mozilla Firefox, Google Chrome) and navigate to <http://doctormycomputer.com> (This tutorial uses Internet Explorer and is recommended)

You may see a small box on the bottom of your screen or receive a box pop up in the middle of your screen... either way click "RUN"

If you receive another window asking to "ACCEPT" Please do to continue the install!

You should now receive a screen that looks like the one below. This will be the screen that will identify the (2) key pieces of information the DoctorMyComputer technician will need. Please provide “YOUR ID” and provide your “PASSWORD” to the DMC Technician when you call.
